Description

Environment

Testing (Development)

Version 0.0.1

Description

When logging into the application with the change of one lowercase letter to uppercase in the UserID, the login went through correctly

- correct UserID: **mngr484054**
- amended UserID: **mnGr484054**

List of steps for reproduction:

1. Go to: <https://demo.guru99.com/v4/>
2. We enter in the field: UserID changed login "mnGr484054" and in the Password field "received password" and click the "LOGIN" button.

Actual result:

The user was logged in correctly

Expected behavior:

Login should not be possible. A message should appear: "User or password is not valid".
